Product innovation

The  
Guardian  
Labs

Product innovation / From a glue to hold planes together to self-

## repairing clothes

An enormous amount of innovation goes on behind the scenes in labs to make everyday items more efficient and sustainable. We look at four materials with far-reaching applications

## 'Quietly, people were forging ahead' / The evolution of 3D printing

## 'Smartphones with wheels' / What the car of the future will be like

Reinvent your business / Can corporations learn to innovate like startups?
